

**Basic:** Passage Width : =520mm  
 Throughput rate : 35p/m  
 Power Supply : 100 ~ 240V  
 Operational Voltage : 24V  
 Max Power Consumption : 30 W  
 Frequency : 50~60hz  
 Protection Level : IP 54  
 Working Temperature : -25oC ~ +70oC  
 Electro - magnetic Drive : DC  
 Dimension Excluding Bar : 560x480x960 mm  
 Net Weight Including Bar : 80kg

<b>Controller</b>	Semi-Auto mode Pure Mechanical mode Single or Bi-directional function in mechanical and electrical versions Automatic reset of barrier arms after each passage Adjustable time out delay
<b>Operating Mode</b>	Single passage in the set direction Bi-directional passage Drop arm feature
<b>Materials</b>	Housing : stainless steel AISI 304 or AISI 316 Barrier Arms : Stainless steel Lid (Optional) : Stainless steel or artificial stone (black / brown)
<b>Colours &amp; Finishes</b>	High quality powder coating plus lacquered finish Dark grey color high quality powder coating plus Sandpaper powder coating with pearl mica effect
<b>lacquered finish</b>
